JavaScript

Python

Git & GitHub

Cybersecurity Fundamentals

Web Development

About Me

I am a Computer Science student specializing in Cybersecurity, with a strong interest in web development, design and technology. I enjoy building user-friendly websites and learning new technologies. I am continuously improving my skills and exploring cybersecurity concepts to build secure and efficient solutions.

Projects

PERSONAL PORTFOLIO WEBSITE

2026

- Developed a responsive personal portfolio using HTML, CSS and JavaScript.
- Deployed the website using GitHub Pages.

ATTENDANCE TRACKER FOR STUDENTS

2026

- Designed a web-based application to help engineering students track their subject-wise attendance.
- Shows required classes to reach 75% and daily attendance updates.
- Mobile-friendly and easy to use.

CYBER FRAUD DETECTION & AWARENESS

2026

- Developed a project idea to detect potential online fraud using Machine Learning.
- Aims to create awareness and promote safe online practices.

NOTES SHARING & PLAGIARISM CHECKER

2026

- Concept to share notes among students and check plagiarism using NLP techniques.
- Helps maintain originality and academic integrity.

SECURE CHAT APP FOR STUDENTS

2026

- Planned a secure real-time chat application for students.
- Focus on data security, authentication and privacy.

Certifications

- Fundamentals of Cybersecurity – Cisco Networking Academy 2026
